Chronic Disease Management and Healthy Ageing Workshops

Designed and facilitated by nurses who are experts in their field these workshops offer nurses an engaging opportunity to update clinical knowledge and practical skills.

The workshops are ideal for primary health care nurses working in General Practice, Aged Care and Community Health settings

- Facilitating behaviour change in the real world
  
  **Kim Poyner, Practice Nurse, Health Coach**

- Wound management
  
  **Cheryl Frank, Clinical Nurse Consultant, Wound Management**

- Mental Illness and Ageing: The Challenges for the Primary Health Care Worker
  
  **Joe Fishburn, Credentialed Mental Health Nurse**

- ECG: Understanding, interpreting and recognising abnormalities
  
  **James Brinton, Clinical Nurse Consultant Surgery**

Here are a few quotes from our attendees this year:

‘Great presentation – really thought provoking for this newbie in the GP world!’
‘Great presenter, who delivered to the audience! I’ve worked in Crit Care for 18 years and never had anyone break it down so well!’
‘Picked up some great hints about how to manage wounds in my practice’
‘Really excited to get the tools to use for speaking to my patients about mental health’
