

# 22<sup>ND</sup> AUGUST 2017

# UNDERSTANDING IMMUNOTHERAPY

## Boosting the body's natural defense's

Immunotherapy is becoming a popular choice to fight cancer now that the TGA and PBS are recognizing its benefits. This unique therapy comes with many advantages for our patients but it also comes with a unique set of immune related side effects that we do not see with traditional chemotherapy.

Dr. Stephen Brown, Director of Medical Oncology at the Ballarat Regional Integrated Cancer Centre will discuss Immunotherapies place in treatment and what clinicians from multiple disciplines need to know when it comes to assessing and treating patients with potential side effects of immunotherapy.

## Venue

**Comfort Inn  
Goldfields**

**7-9 Western  
Highway, Stawell  
3380**

**2 course meal  
provided**

**Time: 6.30pm for a
