

NPS MedicineWise invites your practice to participate in an educational visit for our latest program.

Ankle and knee injuries: your imaging choices – starting November 2016

This program provides an update on the latest imaging recommendations for acute knee and ankle injuries. Where imaging is necessary, guidance on selecting the most appropriate modality will be discussed.

Two types of educational visits are available at no charge. Both are facilitated by our expert Clinical Services Specialists.

- ▶ For GPs – one-on-one tailored discussion (30 minutes duration)
- ▶ Small group case-based meeting for up to 10 health professionals – GPs, practice nurses and pharmacists (1 hour duration)

Accredited for:

- ▶ 2 (Category 2) RACGP QI&CPD points
- ▶ 1 Core point in the ACRRM PD Program

Recognised as counting towards the Practice Incentives Program Quality Prescribing Incentive (PIP QPI)

All participants will receive topic-specific NPS MedicineWise publications, including patient resources.

2014–2016

ANKLE AND KNEE IMAGING EDUCATIONAL VISIT LEARNING OUTCOMES:

- ▶ Apply Ottawa Knee Rules and Ottawa Ankle Rules to help decide whether an X-ray is required for a probable acute knee/ankle fracture
- ▶ Identify appropriate physical tests based on a targeted history to diagnose acute knee/ankle injury
- ▶ Explain the limited role of MRI in diagnosing acute ACL/meniscal tear
- ▶ Explain the limited role of ultrasound in diagnosing lateral ankle sprain
- ▶ Identify relevant clinical information to include in a detailed imaging referral for acute knee/ankle injury

Visit nps.org.au/bookavisit for more information about visits on this topic.
