

Specialist Palliative Care Services (SPCS) in the Grampians Region

Quick Reference Tool

The right care in the right place at the right time

What services do Specialist Palliative Care Services (SPCS) provide?

- Advice, information and support for other health professionals
- One off consultations with patients, carers and family for complex issues
- Short or longer term admissions to program where problems are complex and require regular evaluation and assessment. This may include end stage care.

Triggers for referral

- The referring clinician would not be surprised if the patient died within the next 12 months
- Recurrent presentations to hospital
- For inpatients, it would not be a surprise if the person died this hospital admission
- Progressive disease despite life prolonging therapy
- Recent marked decline in physical function
- Low probability of success from available therapeutic options
- Withdrawal, or consideration of withdrawal, of life prolonging treatment (e.g. haemodialysis, ventilation)
- Patient or family concern about end of life issues
- Care needs exceed carer capacity

For more information refer to the Supportive and Palliative Care Indicators Tool (SPICT). The SPICT™ is used to help us identify people at risk of deteriorating and dying with one or multiple advanced illnesses for holistic, palliative care needs assessment and care planning. www.spict.org.uk

Referral Criteria

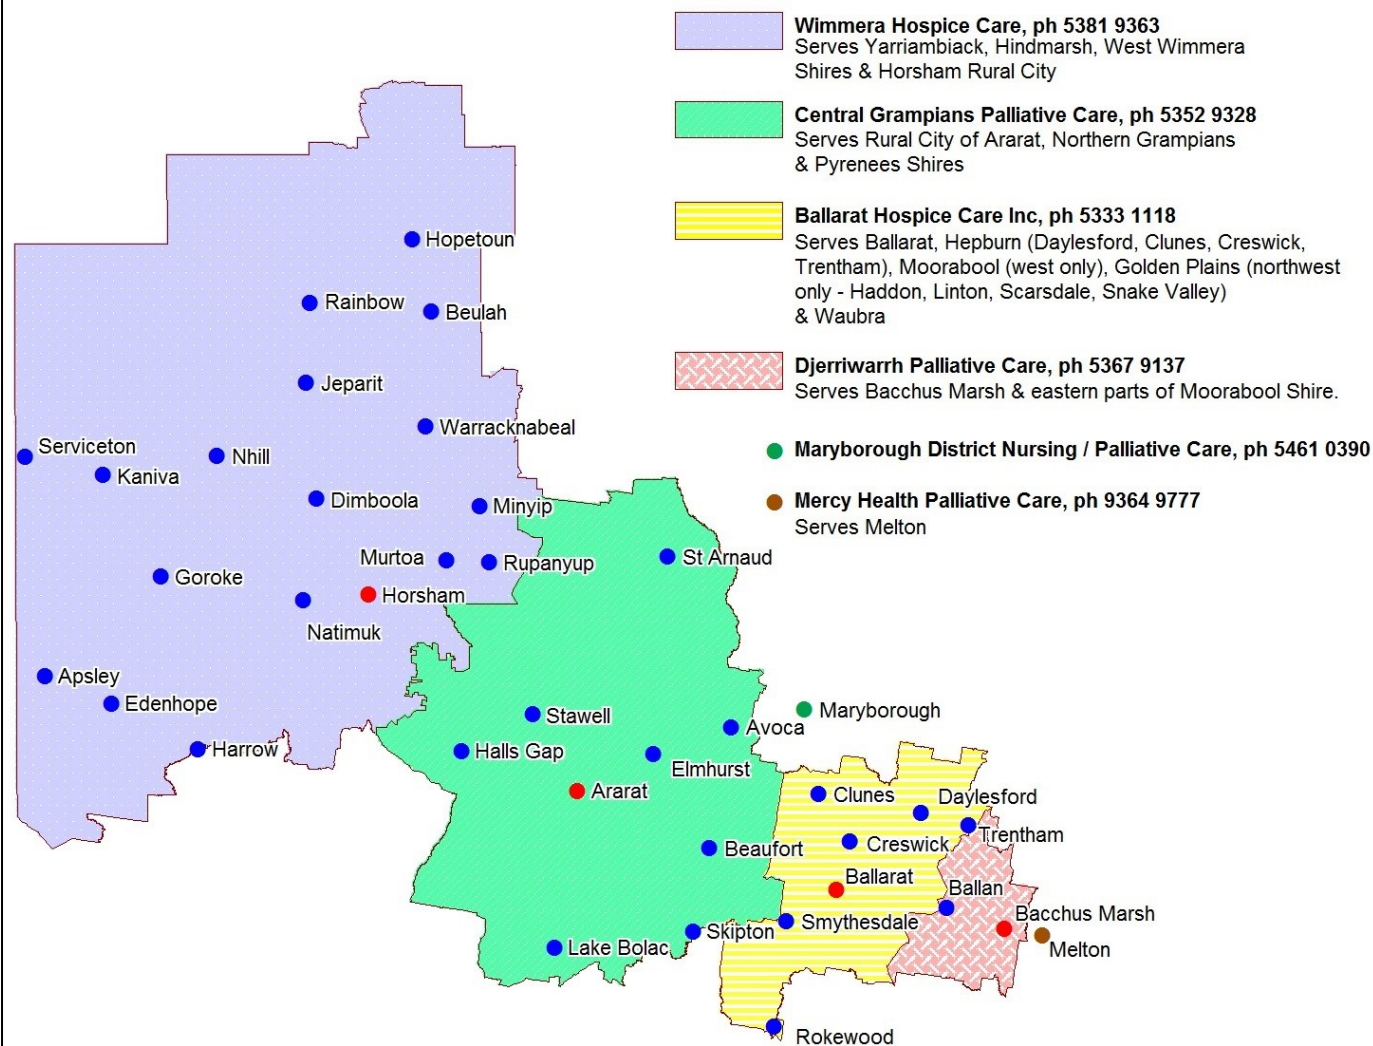

The patient lives in the service area and has a progressive, life limiting or life threatening disease (malignant/non-malignant) and any of the following:

- The patient has complex symptoms that require specialist assessment/management and which are beyond the capacity of the primary care team to manage optimally
- The patient and/or their family has complex psychological, ethical, social or spiritual needs that require specialist assessment and support
- The patient is approaching end of life and the primary care team requires additional support and/or advice

Tips

- To avoid delay in processing your referral, ensure copies of all relevant medical information is provided: e.g. current medication list, admission/registration sheet, scans, blood results, relevant specialists' letters and doctors' notes
- All referrals require the consent of the patient or legal representative
- Patients remain under the care of their primary health care team
- Patients who are having life prolonging treatment are not excluded from referral to a SPCS

Grampians Regional Palliative Care Team
ph 5320 3553 / 0408 612 699
 Serves the Grampians Region

Tip: Ideally phone your local SPCS to discuss the referral prior to completing a referral form/letter
